

1.394 GHz Transmitter

500mW

1.394GHz Transmitter 500mW

Video and Audio Transmission

Technical Data

Transmission power	500 mW
Frequency range	1,394 GHz
Range indoors	Depending on the gain factor of the antenna the range can be improved up to 14 times compared to the standard range
Range outdoors	Depending on the gain factor of the antenna the range can be improved up to 14 times compared to the standard range
Video input	Composite colour picture signal pos. 1 +/- 0,1Vpp
Video bandwidth	30 Hz - 7 MHz
Modulation mode modulated)	F3F (Video/(*Audio if applicable) frequency
AV switching channel	- **10 kOhm
Switching channel frequency	- / *Ton A 32 kHz
Frequency control input	- / *10 kOhm
Power supply	12 V
Current demand	0,8 A
Weight	550 g
Protection class	IP 30
Ambient temperatures (use/store)	-10 - +55°C / -20 - +60°C
Air humidity	max. 70% non-condensing

Connectors

Trigger/Switching channel input	- *Cinch / *RCA
Video input	- *Cinch / *RCA
Dimensions	105 x 48 x 175
12 V DC	DC (2,5/5,5 mm)
